CARLOS JUÁREZ

Senior AI Full Stack Developer | GenAI & AI Agents

PROFESSIONAL SUMMARY

Full Stack Developer & GenAI, specialized in developing intelligent applications and AI agents, integrating AI and modern toolsets like Claude, Codex, and Antigravity, built on Spec-Driven standards. Results-oriented profile with strong technical vision and focused on delivering tangible business value.

PROFESSIONAL EXPERIENCE

Senior AI Full Stack Dev & GenAI | Walstead Iberia | 2025–Present

- Managing end-to-end application lifecycles and internal solutions, from business requirement analysis to architecture design, development, integration, and production deployment, incorporating generative AI to automate processes and optimize workflows.
- Development of AI agents integrated with enterprise applications, APIs, databases, and internal workflows via Model Context Protocol (MCP).
- Core Tech Stack (**Node.js, TypeScript, Python, React, Vue, Go, PHP, MySQL, MCP, Claude, Antigravity, Codex**)

Full Stack & Web Manager | Vapemarkt | 2023–2025

- Web engineering with PHP, TypeScript, Node.js, Python, and React, integrating databases, REST APIs, and third-party services.
- Platform administration and custom engineering in WordPress, Shopify, and PrestaShop, including custom integrations.
- Technical optimization and SEO, contributing to a 15% increase in organic search traffic.

Full Stack & Web Manager | Web Virtual Design | 2008–2023

- Technical direction and development of web projects and applications from initial scoping to production deployment.
- Database design and integration, custom APIs, and third-party services tailored to specific client requirements.
- Full-lifecycle project management with PHP/Laravel, JavaScript, and React for national and international clients.

Own Businesses | Proprietary Ventures | 2008–2023

- Founding and management of a digital development agency and e-commerce ventures.

IT Infrastructure Manager | AVIS Budget Group | 2001–2008

- Project management across corporate IT infrastructure; leadership of systems administration and technical support teams.
- Implementation of cybersecurity solutions, enterprise infrastructure, and operational business continuity.

Cybersecurity Manager | Indra Sistemas | 2000–2001

- Management of corporate cybersecurity initiatives for Indra Corporate and public administration entities (NATO).

System Administrator | Transiciel | 1998–2000

- Systems administration and security operations for enterprise accounts (AVIS Budget Group, BBVA, Telefónica, etc.).

EDUCATION & CERTIFICATIONS

⇨ Master's Degree in Artificial Intelligence & Innovation - Founderz & Microsoft *- in progress*

⇨ Professional SEO Master's Degree - Webpositer Academy

⇨ Technical Degree in Computer Systems Engineering - Pontifical University of Salamanca *- w/f*

⇨ Frontend with JavaScript - JavaScript, TypeScript, React, Angular, and Vue.js - EDteam

⇨ Backend with Python - Python, Node.js, Django, Flask, PostgreSQL - Backend with PHP - PHP, Laravel, MySQL - EDteam

⇨ Backend with Java - Java, Spring Boot, E2E Testing - EDteam

⇨ Data Science & AI - Python, Machine Learning, Data Science, TensorFlow, and PyTorch - EDteam

⇨ Web Programming - HTML5, CSS3, JavaScript, and Programming Logic - EDteam

⇨ WordPress + SEO & Joomla + SEO - Complusoft

⇨ SOLARIS Fundamentals for Administrators (SA-118) *- SUN Microsystems*

⇨ SOLARIS 8 System Administration I & II (SA-238, SA-288) - SUN Microsystems

⇨ SOLARIS 8 Network Administration TCP/IP (SA-389) *- SUN Microsystems*

⇨ Interconnecting CISCO Network Devices (CCNA) *- AI2T*

⇨ ITIL Fundamentals & Wireless Network Implementation and Security - Telefónica

⇨ Exchange Security Administration (MOC5049-5051) - Indra Sistemas

⇨ Internet Security & FIREWALL-1 (SC 3080) - Indra Sistemas

CORE COMPETENCIES

- **Development:**
  - Node.js, TypeScript, Python, Go, PHP, SQL, React, Vue, Angular
- **IA Tools:**
  - Agents **(**Claude, Antigravity, Codex), OpenAI, Copilot, Gemini, DeepSeek, GenAI, Prompt Engineering, MCP
- **Cloud & DevOps:**
  - Git, GitHub, Docker, CI/CD, APIs REST, Arquitecturas Escalables
- **SEO & Digital:**
  - GA4, Semrush, Ahrefs, Sistrix, Screaming Frog
- **Infrastructure:**
  - Windows Server, Active Directory, Linux, Solaris, Citrix
- **Leadership:**
  - Gestión de proyectos, equipos multidisciplinares y transEDUCATION & CERTIFICATIONS digital
